Dear Friends, colleagues, guests,

We (Lieven de Boeck and Aaron Seeto) made an installation at Lokaal 01 in Breda where we wrote protest slogans and national mottos with a white pen on a collection of around 200 glasses of different origin and shape. They made a very beautiful installation and an action on the opening night where we asked people to make toasts with them.

We now want to sell these glasses and let them enter into people's homes and we thought they could be nice alternative christmas or new years presents. We sell them for 10 euro's each (plus transportcosts if applicable).We do hope you will join this action. For organisational reasons its almost impossible to let you choose the text, so we will just chose randomly. I attach here some images of examples.

If you are interested, please contact Lieven De Boeck at boliege@hotmail.com

kind regards,

Aaron and Lieven
